Student Lab Assistants Needed!!

Location: LESA Plant Physiology Lab (CII 7th floor)
# of positions: 2 (must work as a team)
Time: Weekend mornings (Saturday and Sunday)
Duration: Spring 2018, Summer 2018, Fall 2018

**Description / Responsibilities**
LESA is currently seeking two dedicated student lab assistants for light weekend work in the plant physiology lab. The work would involve an initial lab inspection (with check list) to verify all systems are operating as expected, then recording of system settings, variable and identified measurements (i.e., nutrient level, pH) in the hydroponic unit and/or controlled environment chambers. Training for all tasks will be provided.

**Requirements**
- Dependable & On time
- Reliable, Independent
- Ability to follow detailed instructions well
- Excellent record keeping skills
- Excellent attention to detail
- Familiarity with hydroponics and/or lab-based plant growth a plus

Interested students, please contact LESA:
